

To Whom It May Concern:

GRABBER MYCOAL Warmers are disposable heat sources that provide comfort and warmth to millions of people each year. GRABBER MYCOAL hereby states that all GRABBER MYCOAL air-activated Warmers are completely safe for airline travel.

Section VII of GRABBER MYCOAL's Material Safety Data Sheet (MSDS) shows that no special precautions are necessary for handling, storage, waste disposal, or if material is released/spilled.

There are no hazardous materials within the ingredients as outlined in Section II of the MSDS. Ingredients include iron powder, water, cellulose, vermiculite, activated carbon, and salt. GRABBER MYCOAL Warmers are stable and have NFPA/HMIS Hazard classifications of 0 for Flammability, Reactivity, and Health.

If you have any questions, feel free to call us at 800-423-1233.

Sincerely,

GRABBER Performance Group
